

KOHA Library Software:

Library is automated using KOHA Library Management System (LMS)

KOHA is the world's best library automation software, used by over 3,000 academic, public, and special libraries around the world. In India, libraries of esteemed institutions such as British Council Libraries, IIM Ahmadabad, and Mysore University are implementing this software. KOHA encapsulates all modules required for comprehensive library software.

RAAK College of Engineering and Technology, Library Used the KOHA Library Software.

KOHA has all the modules you would expect in fully-functional library software – acquisition, serials, members, circulation, cataloging, reports, and tools. KOHA is Standards compliant – MARC 21 (or UNIMARC) for cataloging, Z39.5 for copy cataloging, UTF-8 for non-English catalog data, and SIP2 for RFID integration.

KOHA is one of the best Library Software to get various types of reports – In-Out report of the Library Patrons, Accession Register, Circulation Details, Date wise Circulation Details, Book Reservation Facility, New Arrival Reports, and many more.

KOHA has Library Software android Mobile App-Library Patrons has downloaded this Mobile App to Access Library OPAC (online public access catalogue) for search any book and Library resources as per their Requirement – Author, Title, Classification wise report.
