REPORT

Name : Workshop on “DATA SCIENCE RESEARCH”

Date : 21/02/2020

The Workshop on Data Science research offers a comprehensive exploration of key concepts and techniques in the field. Participants delve into data collection, cleaning, analysis, and visualization using popular tools and languages like Python and R. Through hands-on exercises and real-world case studies, attendees gain practical experience in applying machine learning algorithms and statistical methods to extract insights from data. Expert instructors guide discussions on data ethics, model evaluation, and best practices in data science workflows. By the workshop's conclusion, participants emerge with a solid foundation in data science principles and practical skills, empowering them to tackle complex analytical challenges with confidence.

REPORT

Name : Seminar on "IPR SIGNIFICANCE IN RESEARCH & INNOVATION"

Date : 20/09/2019

The "Seminar on IPR Significance in Research & Innovation" delved into the critical role of Intellectual Property Rights (IPR) in fostering research and innovation ecosystems. Through insightful presentations and expert discussions, attendees gained a profound understanding of how IPR safeguards intellectual assets, incentivizes creativity, and drives economic growth. Key topics included patenting processes, copyright laws, and strategies for protecting inventions and creative works. Case studies highlighting successful IP management practices offered valuable insights into leveraging IPR for competitive advantage.

REPORT

Name : Workshop on “INNOVATIVE CYBER SECURITY ESSENTIALS”

Date : 06/09/2019

The Workshop on innovative Cyber security Essentials provides a comprehensive overview of fundamental concepts and practices in safeguarding digital assets. Participants learn about common cyber threats, vulnerabilities, and attack vectors, as well as essential strategies for risk mitigation and incident response. Through hands-on exercises and simulations, attendees gain practical experience in implementing security measures such as encryption, access controls, and network monitoring. Expert facilitators share insights on emerging trends and best practices in cybersecurity, emphasizing the importance of a proactive and holistic approach to defense. By the workshop's conclusion, participants emerge with a solid foundation in cybersecurity essentials, empowering them to protect their organizations and assets effectively.

REPORT

Name : Seminar on “INTELLECTUAL PROPERTY RIGHTS PATENTS IN ENTREPRENEURSHIP”

Date : 23/08/2019

The seminar on Intellectual Property Rights (IPR) patents in entrepreneurship explores the pivotal role of patents in fostering innovation and protecting intellectual property. Participants gain insights into the process of patenting, including application procedures, requirements, and legal considerations. Expert speakers provide practical guidance on leveraging patents to safeguard inventions and gain competitive advantage in the entrepreneurial landscape. Case studies illustrate the strategic use of patents in startups and established businesses. Discussions also address the intersection of patents with other forms of IPR and business strategies. By seminar's end, participants are equipped with knowledge and strategies to effectively navigate the patenting process and harness its benefits in entrepreneurship.

REPORT

Name : Workshop on “EMPLOYABLE SKILLS FOR STARTUP ENTREPRENEURS”

Date : 09/08/2019

The workshop on Employable Skills for Startup Entrepreneurs equips participants with essential competencies to thrive in the dynamic startup landscape. Through interactive sessions, attendees develop skills in critical areas such as leadership, communication, problem-solving, and adaptability. Expert speakers share practical insights and strategies for navigating challenges inherent to startup ventures, including team management, financial literacy, and networking. Hands-on activities and case studies provide real-world context, enhancing learning and skill application. By the workshop's conclusion, participants emerge with a well-rounded toolkit of employable skills, empowering them to succeed as resilient and innovative entrepreneurs in today's competitive startup ecosystem.

Sub : Permission regarding the workshop on “DESIGN THINKING- GET STARTED WITH INNOVATIVE PROTOTYPE DEVELOPMENT”

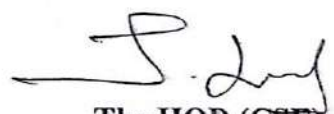

Respected Sir,

This is to request that a workshop titled “DESIGN THINKING- GET STARTED WITH INNOVATIVE PROTOTYPE DEVELOPMENT” is planning to be organized on 26/07/2019. This program is primarily crafted to enhance student’s knowledge. Kindly grant permission to conduct this event. Your gracious presence is much obliged..

Thanking you,

Yours faithfully,

Dr. S. SEENUVASAMURTHI, M.E., Ph.D.

REPORT

Name : Workshop on “DESIGN THINKING- GET STARTED WITH INNOVATIVE PROTOTYPE DEVELOPMENT”

Date : 26/07/2019

The workshop on Design Thinking offers a practical introduction to the methodology, focusing on prototype development as a central aspect. Participants learn the essentials of empathizing, defining, ideating, prototyping, and testing. Through interactive exercises, attendees gain hands-on experience in rapid prototyping techniques and tools. Facilitators guide participants in translating ideas into tangible prototypes, emphasizing iteration and feedback for refinement. By the workshop's end, participants leave equipped with the skills and confidence to apply Design Thinking principles effectively, fostering innovation and problem-solving in their projects and initiatives.

REPORT

Name : Seminar on “RESEARCH ASPECTS OF R PROGRAMMING”

Date : 12/07/2019

The Seminar on Research aspects of R Programming offers a focused exploration of this powerful statistical computing language. Participants delve into R's core concepts, syntax, and data manipulation capabilities. Through interactive sessions and practical examples, attendees gain hands-on experience in writing R scripts and performing statistical analysis. Expert instructors guide discussions on advanced topics such as data visualization, machine learning, and package development. The seminar also covers best practices for reproducible research and collaborative coding in R. By the seminar's conclusion, participants acquire a solid foundation in R programming and the skills to leverage its capabilities for data analysis, visualization, and decision-making in various domains.

Seminar on “RESEARCH ASPECTS OF R PROGRAMMING” on 12/07/2019
