MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ("MoU") is entered into as of **May 20, 2023** by and between, **RAAK College of Engineering and Technology**, (hereinafter referred to as "RAAKCET")

AND

Testbook Edu Solutions Pvt. Ltd. (PAN: AASCS8515R and CIN: U72200MH2013PTC241118), a private limited company incorporated under the Companies Act, 1956, engaged in providing online educational courses to students, having its registered office at 1st and 2nd Floor, Zion Building, Plot no. 273, Sector No. 10, Kharghar, Navi Mumbai, Raigarh, Maharashtra - 410210 (hereinafter referred to as "Skill Academy", which expression shall unless repugnant to the context or meaning thereto shall mean and include its successors and permitted assigns) represented herein by its Director, Mr. Ashutosh Kumar, duly authorized by its board of directors vide resolution dated 16th November 2019.

"Parties

WHEREAS:

A. Skill Academy will provide its services under **Skill Academy Campus Program** for use by RAAK CET in respect of "End Users" (all students who are presently enrolled in any program with the institution), in accordance with the terms and conditions set out herein.

B. Pursuant to the foregoing, the Parties have agreed to enter into this MoU to set forth the terms and conditions of their arrangement in the following sections.

As a part of this MoU, both the parties have identified and hereto agree to the following responsibilities respectively:

1. RESPONSIBILITIES

Responsibilities of Skill Academy

A. Skill Academy with the help of RAAK CET shall get all the willing students of RAAK CET to register in the Skill Academy Camp with email ID & contact number to avail the services & benefits

B. There will be no financial implications involved between Skill Academy and RAAK CET during the "Term" (defined hereafter) of this MoU, the end-users will get the following benefits under Skill Academy Camp.

- Complete Preparation for Job & Internship - Activities for a period of 1 year which would include Live Aptitude Tests & Company Specific Mock Tests.
- Live Bootcamp from Top Industry Experts (Minimum of 25)
- Free Access to all the content under Testbook Pass for a period of 1 month
- Chance to get internships & full-time job opportunities through various competitions.

REPORT

Name : "SKILL BASED APTITUDE"

Date : 29/07/2022

Skill-based aptitude training focuses on developing specific competencies required for various roles or tasks. It encompasses practical exercises, simulations, and hands-on experiences tailored to enhance participants' proficiency in specific areas such as problem-solving, critical thinking, and technical skills. The training emphasizes active learning met to promote skill acquisition and retention, often incorporating real-world scenarios to provide context and relevance. Through targeted instruction and practice, participants sharpen their abilities and gain confidence in applying them in diverse situations. Overall, skill-based aptitude training equips individuals with the necessary capabilities to excel in their respective fields and adapt to evolving challenges effectively.

REPORT

Name : "TRENDS IN SOFTWARE DEVELOPMENT"

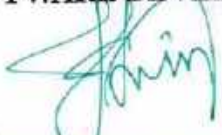

Date :13/05/2022

In the guest lecture on software development, various aspects of the software development process were discussed. Topics included the importance of requirements gathering, agile methodologies, and the significance of testing and debugging in ensuring product quality. The speaker emphasized the need for effective communication and collaboration among team members and highlighted the role of continuous integration and deployment in achieving faster delivery cycles. Additionally, the lecture covered the significance of user feedback and iteration in the development process to create software that meets user needs effectively. Overall, it provided valuable insights into the holistic approach required for successful software development projects.

REPORT

Name : Seminar on "HANDS-ON DOT NET DEVELOPMENT"

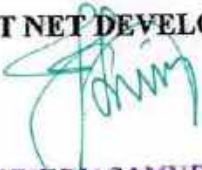

Date : 22/04/2022

A guest lecture on .NET development offers an in-depth exploration of Microsoft's powerful framework for building versatile applications. The session covers core topics such as the .NET architecture, key languages like C#, and integrated development environments like Visual Studio. Attendees learn about building web, desktop, and mobile applications, as well as the framework's compatibility with cloud services and databases. The speaker, an industry expert, shares best practices, development tips, and insights into the latest .NET features and updates. This lecture equips participants with a robust understanding of .NET development, enhancing their skills and preparing them for advanced application development projects.

REPORT

Name : Seminar on "EXPLORING ABOUT INDUSTRIES"

Date :25/03/2022

Skill-based training tailored for industries equips individuals with practical, job-specific abilities essential for various sectors. This training focuses on hands-on learning, covering technical skills such as machinery operation, software usage, and quality control, as well as soft skills like teamwork and communication. Through workshops, simulations, and real-world projects, participants gain valuable industry insights and experience. Such programs align with current industry demands, ensuring that trainees are up-to-date with the latest technologies and practices. By enhancing their competencies, individuals become more employable and productive, ready to meet the challenges of their respective fields with confidence and expertise.

REPORT

Name : "SUCCESS STRATEGIES FOR COMPETITIVE EXAMS"

Date : 11/03/2022

A seminar on competitive exams provides students with crucial information and strategies to excel in various standardized tests. The session covers a range of exams such as GRE, GMAT, SAT, GATE, and civil services exams. Topics include effective study techniques, time management, understanding exam patterns, and tackling different types of questions. Experts share insights on preparing comprehensive study plans, utilizing resources efficiently, and handling exam stress. Attendees gain valuable tips on enhancing their problem-solving skills and boosting their confidence. This seminar prepares students to approach competitive exams with a well-rounded strategy, increasing their chances of achieving high scores and reaching their academic and career goals.

REPORT

Name : Seminar on "ABROAD STUDIES"

Date : 11/02/2022

A seminar on studying abroad offers students valuable information on pursuing education in foreign countries. The session covers essential topics such as selecting the right destination and university, application processes, scholarship opportunities, visa requirements, and cultural adaptation. Experts and alumni share their experiences, providing insights into academic life, living conditions, and career prospects abroad. Attendees also learn about the benefits of international education, including global exposure, personal growth, and networking opportunities. This seminar equips students with the knowledge and confidence needed to make informed decisions about their educational and professional futures in an international context.

REPORT

Name : Workshop of "PLASTIC INJECTION MODELING"

Date : 04/02/2022

A plastic injection moulding workshop provides hands-on training in the process of creating plastic parts using injection moulding technology. Participants learn about the machinery, materials, and techniques involved, including mould design, material selection, and process optimization. The workshop covers key topics such as the injection moulding cycle, troubleshooting common issues, and maintaining quality control. Attendees gain practical experience by operating injection moulding machines and observing the production of plastic components. This training equips individuals with the skills needed to work in the plastic manufacturing industry, enhancing their technical knowledge and improving their ability to produce high-quality plastic products.

REPORT

Name : Seminar of “SKILL BASED APPROACHES”

Date : 28/01/2022

Skill-based training focuses on equipping individuals with specific, practical abilities required in the workforce. This type of training emphasizes hands-on learning and real-world application, allowing participants to develop competencies in areas such as technical skills, problem-solving, and project management. Through workshops, simulations, and interactive sessions, trainees gain valuable experience that directly translates to improved job performance and career advancement. By tailoring the training to industry demands, participants can acquire up-to-date skills that enhance their employability and productivity. This approach ensures that learners are well-prepared to meet the challenges of their respective fields with confidence and expertise.

MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

RAAK College of Engineering and Technology
and
Roadmap IT Solutions Pvt Ltd, Puducherry

This Memorandum of Understanding (hereinafter called as the MoU) is entered into on this the 6th day of January 2022 by and between RAAK College of Engineering and Technology, Puducherry, Dr.S.Seenuvasamurthi First Party represented herein by its Principal RAAK College of Engineering and Technology, Puducherry and Roadmap IT Solutions Pvt Ltd, Puducherry the Second party, and represented herein by its HR Manager Mr.Sivaguru.

WHEREAS:

- A) First Party is a Higher Educational Institution named: RAAK College of Engineering and Technology, Puducherry.
- B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
- C) The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based work exposure and Education.
- D) Roadmap IT Solutions Pvt Ltd, Puducherry - the Second Party is engaged in IT Services.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1

CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish co-operation.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities.
- 1.3 The parties shall co-operate with each other and shall as promptly as is responsibly practical, relevant agreement.

REPORT

Name : "INDUSTRIAL TRAINING AND PRACTICAL EXPOSURE"

Date : 08/01/2022

Industrial training and practical exposure provide students with hands-on experience and a deeper understanding of real-world industry operations. This program includes site visits to manufacturing plants, technology hubs, or corporate offices, and interactive sessions with industry professionals. Students observe the practical application of their academic knowledge, learning about current technologies, machinery, and workflows. Such experiences help bridge the gap between theory and practice, enhancing their skills and boosting employability. By engaging in these activities, students gain valuable insights into industry standards, best practices, and professional expectations, preparing them for successful careers in their respective fields.

REPORT

Name : "PROBLEM SOLVING AND SKILL DEVELOPMENT"

Date : 30/12/2021

Developing problem-solving skills in students is essential for their academic and personal growth. This skill set involves critical thinking, creativity, and the ability to analyze and solve complex issues effectively. By engaging in activities such as puzzles, case studies, and project-based learning, students learn to approach problems methodically and think outside the box. Educators can foster these skills through collaborative exercises, encouraging open discussions, and providing real-world scenarios that challenge students to find solutions. Strengthening problem-solving abilities not only enhances students' academic performance but also prepares them for future professional challenges, making them adaptable and resilient individuals.

REPORT

Name : Seminar on "PRESENTATION SKILL"

Date :10/12/2021

The seminar on presentation skills focuses on enhancing participants' ability to deliver impactful and engaging presentations. Key topics include structuring content effectively to ensure clarity and coherence, using compelling visual aids to support key points without overwhelming the audience, and mastering delivery techniques such as voice modulation and body language. The seminar also emphasizes audience engagement strategies, encouraging active participation and interaction to enhance understanding and retention of information. Participants learn how to handle Q&A sessions confidently and receive constructive feedback to continuously improve their presentation skills. Overall, the seminar equips attendees with practical tools and strategies to deliver confident, persuasive presentations that effectively communicate ideas and achieve desired outcomes in professional settings.

REPORT

Name : "INDUSTRIAL TRAINING AND VISIT"

Date : 26/11/2021

An industrial training and visit program provides students and professionals with practical, real-world experience in various industries. Participants engage in hands-on activities and gain insights into industry operations, workflows, and best practices. This exposure is invaluable for bridging the gap between theoretical knowledge and practical application. Typically, the program includes guided tours of manufacturing plants, technology hubs, or corporate offices, offering firsthand observations of cutting-edge machinery, software, and processes. Interactive sessions with industry experts allow for deep dives into current trends and standards. These experiences are pivotal for career development, as they enhance participants' understanding of professional practices and bolster their employability by equipping them with industry-relevant skills and knowledge. Overall, industrial training and visit programs play a crucial role in preparing individuals for the complexities of the workplace, fostering a practical understanding of how industries operate and innovate.

REPORT

Name : Seminar on “WEB APP DESIGN AND DEVELOPMENT”

Date : 22/10/2021

A seminar on web applications provides an insightful overview of the development, functionality, and impact of web-based software. The session explores key topics such as web application architecture, front-end and back-end technologies, and the importance of responsive design. Attendees learn about popular frameworks and tools used in the industry, including React, Angular, Node.js, and Django. The seminar also covers security best practices, performance optimization, and user experience enhancements. By understanding these elements, participants can better appreciate the complexities of web application development and its significance in today’s digital landscape, preparing them for practical implementation in their own projects.

REPORT

Name : Skill based training on “MECHINARIES”

Date : 15/10/2021

The skill-based training on machineries offers a comprehensive learning experience for participants aiming to enhance their proficiency in operating and maintaining various mechanical equipment. Through hands-on sessions and theoretical modules, attendees gain practical knowledge of machine components, troubleshooting techniques, and safety protocols. Expert instructors guide participants through the intricacies of machinery operation, focusing on precision, efficiency, and best practices. Topics covered include machine setup, calibration, preventive maintenance, and troubleshooting common issues. This training equips individuals with the skills and confidence to excel in diverse industrial settings, contributing to increased productivity, safety, and reliability in machinery operations.

ABE Semiconductor Designs, Chennai.

This Memorandum of Understanding (hereinafter called as the 'MoU') is entered into on this the 31 day of Month August 2021 by and between RAAK College of Engineering and Technology, Puducherry the Dr.S.Seenuvasamurthi, First Party represented herein by its Principal RAAK College of Engineering and Technology, Puducherry and ABE Semiconductor Designs, Chennai the second party and represented herein by its Managing Director Mr. A. Athif Shah

WHEREAS:

A) First Party is a Higher Educational Institution named: RAAK College of Engineering and Technology, Puducherry,

B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.

C) The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education, Placement, Industrial Visit, Expert Lecture.

D) ABE Semiconductor Designs, Chennai, - the Second Party is engaged in Electronics and Communication Engineering.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1

CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish co-operation.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities.
- 1.3 The parties shall co-operate with each other and shall as promptly as is responsibly practical, relevant agreement.

REPORT

Name : Seminar on "SEMICONDUCTOR KNOWLEDGE AND ITS IMPACT"

Date : 24/09/2021

The guest lectures on semiconductors offer a comprehensive exploration of this vital technology domain. Expert speakers delve into fundamental concepts such as band theory, semiconductor materials, and device physics. They discuss cutting-edge advancements in areas like nanotechnology, quantum computing, and semiconductor fabrication processes. Attendees gain insights into the latest trends and applications in fields such as electronics, renewable energy, and telecommunications. Interactive sessions allow for in-depth discussions on topics like integrated circuits, semiconductor devices, and emerging technologies. These lectures provide invaluable knowledge and inspiration for engineers, researchers, and enthusiasts navigating the dynamic landscape of semiconductor science and technology.

Name : "INDUSTRIAL VISIT AND ITS HANDS-ON"

Date : 10/09/2021

The workshop on manufacturing paper products offers comprehensive insights into the process, from raw materials to final products. Covering techniques like pulping, refining, and forming, it emphasizes sustainable practices and modern innovations. Participants gain practical knowledge through hands-on demonstrations and discussions on quality control, machinery, and market trends. Expert speakers delve into topics such as recycling, eco-friendly alternatives, and the role of technology in optimizing production. Attendees leave equipped with valuable skills to enhance efficiency and sustainability in paper manufacturing, fostering growth in the industry while minimizing environmental impact.

REPORT

Name : Seminar on "PLASTIC WASTE AWARENESS"

Date : 27/08/2021

Our institution hosted a seminar on plastic waste awareness, focusing on the environmental impacts and management strategies for plastic pollution. Experts highlighted the severe consequences of plastic waste on ecosystems and human health, stressing the importance of reducing plastic use and promoting recycling. The seminar covered innovative solutions, including biodegradable alternatives and waste-to-energy technologies. Attendees learned practical steps to minimize plastic consumption and participated in discussions on policy changes and community initiatives. The event aimed to educate and inspire participants to take action against plastic pollution, fostering a more sustainable and environmentally conscious community.
