### How to fetch Job's in Marquee Companies

Name of the Program : How to fetch Job's in Marquee Companies  
Name of the Resource Person : Dr.P.Balaji Srikaanth, AP,SRM institute of Science & Technology,Chennai  
Date :15.06.2021  
Time : 10.00 AM to 04.00 PM  
No. of Beneficiary : 76

The program, "How to Fetch Jobs in Marquee Companies," participants will embark on a strategic journey to secure employment opportunities at prestigious organizations. Through a series of targeted modules, participants will gain invaluable insights into the recruitment processes of marquee companies and learn effective strategies for positioning themselves as competitive candidates.

The program will also provide comprehensive interview preparation, including research strategies, mock interviews, and feedback sessions to refine interview skills. Participants will gain a thorough understanding of the recruitment stages at marquee companies, learning how to navigate each step with confidence and persistence. By the program's conclusion, participants will be equipped with the knowledge, skills, and confidence needed to stand out in the competitive job market and secure coveted positions at marquee companies.

**Opportunities in Artificial Neural Network on Engineering Applications**

Name of the Program : Opportunities in Artificial Neural Network on Engineering Applications  
Name of the Resource Person : Mr.Manoj Kumar Desai,Software Engineer, Wells Fargo, Bangalore.  
Date : 04.06.2021  
Time : 10.00 AM to 04.00 PM  
No. of Beneficiary : 64

In this program Department of EEE and ECE students has participated. Students gather the knowledge about Artificial Neural Network offer extensive opportunities in engineering applications, these programs cover core topics such as the basics of neural networks, mathematical foundations like linear algebra and probability, and various neural network types, including CNNs, RNNs, and GANs.

Students learn about training techniques, deep learning frameworks like Tensor Flow and PyTorch, and data preprocessing. Career paths for graduates range from data scientists and machine learning engineers This comprehensive approach equips students with theoretical knowledge and practical skills, preparing them for impactful careers in the evolving field of artificial neural networks.
