Ref: Guidelines issued by the Government of Puducherry to ban Single use plastics on the Campus.

Sub: Ban on single use plastics in RAAK CET Campus-Reg.

The plastic waste has emerged as one of the biggest environmental concerns adversely impacting the soil, water, health and well-being of citizens at large. As per the guidelines received from Government of Puducherry, I am pleased to declare that our college will be as **Single Use Plastic Free Campus** with effect from 4th June 2022, on the eve of **World Environment Day**. In this regard, all are requested to adhere the following guidelines to make our campus as Single Use Plastic (SUP) free.

1. Use of Single-use Plastic in Canteens, Campus Premises, Hostels, etc., is prohibited
2. To strive to make the campus plastic free by systematically banning use of plastic and replacing same with suitable environmental friendly substitutes.
3. All students/Staff members are asked to avoid bringing non-biodegradable plastic items in the campus.
4. Avoid the use of plastic water bottles and bags inside the campus instead kindly use of alternative solutions like cloth bags, paper bags, etc.,
5. Students and staff members are encouraged to use steel tiffin box and steel water bottles to reduce usage of plastics.

GREEN CAMPUS INITIATIVES

Our College have initiated the Green Campus program that aims to create sustainable solutions within college campuses to reduce environmental impact, enhance campus sustainability, and protect the health and well-being of the surrounding community and ecosystem.

It provides space for study, play, outdoor events, relaxation, and aesthetic appreciation. Green campus landscaping also helps recharge groundwater, clean and cool the air, and supports biodiversity.

The green campus concept provides institutions with an opportunity to redefine their environmental culture and protect the ecosystem.

1. Landscape with Trees and Plants
2. Single Use Plastic Free Campus

- Turn off your monitor when you leave the table.
- Whenever possible, shutdown rather than logging off.
- Turn off unnecessary lights, air conditioner and use day light instead.
- Keep lights off in classrooms, lecture halls when they are not in use.
- Use fans only when they are needed.

Conclusion:

By adopting the renewable energy sources, our college has not only reduced its carbon footprint but also has saved significant amount of money on energy bills. The college has set an example of environmental stewardship for the community.
