7.3.1 PORTRAY THE PERFORMANCE OF THE INSTITUTION IN ONE AREA DISTINCTIVE TO ITS PRIORITY AND THRUST

Institutional Distinctiveness:

HOLISTIC DEVELOPMENT

The Institute focuses keenly on the holistic development of students and faculty provides them with every opportunity and resource to facilitate their holistic development. This is one of the most distinctive features the Institute, whose details are given below in brief.

Holistic Development

RAAK

COLLEGE OF ENGINEERING AND TECHNOLOGY

[Approved by AICTE, New Delhi & Affiliated to Pondicherry University]
An ISO 9001:2015 Certified Institution

The period since the founding of the United Nations Educational, Scientific, and Cultural Organization (UNESCO) in 1945 has been marked by an accumulating global agenda for transforming education for students in fundamental ways—including the recognition that education is a human right and a public good, that access is not tantamount to learning, and that academic learning is but one dimension of holistic student development. Each of these calls for global educational transformation has been invoked in response to crises regarding educational equity, quality, and purpose.

Even in the unprecedented situation due to the Covid pandemic the institute has made diligent efforts to support students and faculties by all means.

I. Intellectual development:

The institute uses the most recent pedagogy techniques to execute university curriculum through well-planned and efficient teaching and learning activities. Different strategies have been used to help children meet their unique needs. Mentors, business leaders, experts in their fields, and innovators expose pupils to new ideas and concepts throughout their educational programs. They can then be prepared for employment. Up order to fill in any gaps in the curriculum, the institute proactively identifies them and provides for extracurricular instruction. Through projects like minor and major projects and complicated problem solving, the students are given the opportunity to work on pertinent issues relating to society and industry. They are also given internships. Additionally, the institute runs a number of initiatives to give students practical training. Students also build hands-on experiences through technical fests and model exhibitions.

II. Social development:

The social skills are nurtured through various activities conducted by the social clubs at the institute.

Exposure to social issues and working on probable solutions: The students are exposed to the diverse social structure and their issues, particularly in the neighboring areas, through the National Service Scheme implemented at the Institute, the students undertake activities of spreading social awareness about various burning topics such as Blood Donation, women health, Swatch Bharat, save trees, Say No to Plastic, etc. While doing so, they also become aware of the issues of the society and think on probable measures to solve them.

Inculcating benevolence: The students take part in helping the neglected part of the society like educating kids, orphans and old age people. Students help the children at the orphanages by conducting classes for the kids. At the old-age homes, students extend their help.

III. Physical development:

The institute encourages students to participate in physical activities to help them develop a variety of crucial abilities, including physical fitness, teamwork, self- assurance, decision-making, mental toughness, etc. The college has conducted various Sports activities like Department Sports League, house matches for the students that include a variety of sports like cricket, volleyball, throw ball, kabaddi, chess, carom, etc. Boys and girls both participate in and demonstrate their skills in these sports, and as a result, their sportsmanship and capacity for teamwork develop. Every year, the institute observes International Yoga Day. Numerous physical activities, including yoga, exercises, outdoor sports, and others are undertaken at the camps held at the numerous villages that the institute has sponsored through NSS.

IV. Emotional development:

College students undergo significant emotional growth as they navigate new social dynamics, face challenges and setbacks, and learn to manage their emotions. This period of heightened emotional growth can have a lasting impact on their personal relationships, self-awareness, and overall well-being. It's a crucial time for students to develop skills that enhance their emotional intelligence and resilience.

The institute gives the students' emotional well-being the appropriate amount of attention. Students are guaranteed contact with faculty thanks to the mentor-mentee system that is in place. Students can talk to the instructors about their academics and personal issues at these meetings. The pupils receive appropriate counseling from the mentor-faculty.

V. Cultural development:

Cultural development in college students encompasses a multifaceted journey that shapes their perspectives, expands their horizons, and instills a deep understanding and appreciation for diverse cultures. It is essential for college students as they transition to the workplace, enabling effective interactions across cultural boundaries. RAAKCET fosters cultural awareness, personal growth, and the acquisition of skills that extend beyond academics. Students learn to appreciate diversity, navigate conflicts, and engage with cultural resources, enhancing their overall development.

VI. Moral development:

Moral development in college students is a crucial aspect of their overall growth. Attending college plays a critical role in moral development. Students often exhibit increased moral reasoning during their college years. Students' beliefs about personal responsibility impact their moral development. For freshmen with low moral reasoning scores, causal attribution beliefs matter.

College fosters ethical growth and prosocial development. Students learn to differentiate between right and wrong, manage emotions, and establish mature interpersonal relationships. Inculcating moral values positively impacts self-confidence and attitude. College provides a fertile ground for moral development, shaping students' ethical perspectives and behaviors. Their experiences, beliefs, and engagement all contribute to this essential aspect of personal growth. Moral development is a lifelong process, and college provides an excellent environment for growth.
